## DETAILED ACTION

### *Election/Restrictions*

1. Inventions **A apparatus of memory device in claims 1-29** and **A method of testing a DLL in claims 30-41** are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the method of testing a DLL can be practiced with the other memory device.

2. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
